

**New Product Release**

# **AE 2CH Remote with Dual Push Panic**

**Part No:** CRRT102

## **Description:**

ACTIVOR 2CH TX Suits AE &  
Multi Function Receivers

## **General Information**

The new AE compatible 2ch transmitter has been designed to meet the new Police requirements where wireless panic alarms must be generated from a Dual Push device. This remote can be used with all AE receivers new and exiting in the field.

The remote can also be used with the Crow Multi function receivers that are configured as a standalone receiver or connected to the Runner via the codepad BUS.

Three (3) individual transmissions can stored into the chosen receiver.

1st Code = Button 1

2nd Code = Button 2

3rd Code = Dual Push Panic Buttons 1 & 2
