

## 2 Gang Outlet Plate with Cable Management (Black) 05MM-WP62B

The 05MM-WP62B is a cable management wall plate with 2 x mech insert points allowing you to run your AV cables directly between the source and display while also having terminated connections like TV or data points fitted off neatly. This unit can help you run cables through a wall easily, with a large opening that can accommodate several cables at once while still keeping things neat and organised. It is perfect for use with our RP01/2/3 series recessed wall points to connect wall-mounted TVs with your entertainment system.

### Features and Benefits

- » This flush mount cable management wall plate keeps cables tidy and secure
- » Suitable for computer networks, home theatre systems, or any application which involves in-wall cabling
- » Has a small opening that accommodates additional direct connection of pre-terminated cables
- » Allows cables to enter the wall cavity space without the need for inter-connect fittings
- » 2 blank Clipsal fitting mech ports available for additional connections
- » Rubber flange to keep dust away
