Accessories to Fit

Adaptor rings and clip-on trims

Size doesn't matter

A cutout that's too big is not necessarily a disaster with adaptor rings. Adaptor rings or conversion plates are designed to allow you to install a downlight that normally requires a small cutout into a larger cutout, eliminating the need for plastering and repainting. They are available to fit AURORA and VIVA.

Code	Fits	Cutout sizes	Diameter	Colour
TRIM-VIVA110-170-W	VIVA Multi	100 - 160mm	170mm	White
TRIM-VIVA110-130-W	VIVA Multi	100 - 120mm	130mm	White
TRIM-AURORAV2-170-W	AURORA Tritone	100 - 160mm	170mm	White
TRIM-AURORAV2-130-W	AURORA Tritone	100 - 120mm	130mm	White

Clip-on Trims

VIVA downlights come in a standard white finish but that is easily changed to black, brushed nickel or even gold. All you need do is attach a simple clip-on trim to change the original white trim to the colour of your choice.

Code	Fits	Colour
TRB-VIVA110	TRB-VIVA110	Black
TRN-VIVA110	TRB-VIVA110	Brushed Nickel
TRG-VIVA110	TRB-VIVA110	Gold
