# SAFETY FIRST. CONVENIENCE A CLOSE SECOND.

Upgrade to the 6000 Series  
from Lifesaver, now with  
wireless smoke alarm control.

The all new Lifesaver 6000 series delivers the latest in fire-detection technology, paired with the convenience of a wireless remote control.

Testing or hushing smoke alarms has never been easier with the Lifesaver 6000 series. The 6000THL wireless smoke alarm controller offers an effortless solution for testing units, as well as locating and silencing initiating alarms at the press of a button.

Lifesaver smoke alarms are designed in Australia for Australian conditions. And they are produced by the world's largest, and most reputable smoke alarm manufacturer.

Our smoke alarms suit all installations; with options of either sealed, tamper-resistant batteries, or mains powered with back-up batteries. With all our features, you can be confident Lifesaver smoke alarms will protect you and your family for years to come.

**Take precautions to protect your family and home.  
Insist on Lifesaver smoke alarms.**

# 6000THL SMOKE ALARM CONTROL

## Wireless Test/Hush/Locate Controller for Lifesaver 6000 Series Smoke Alarms

The PSA Lifesaver 6000THL smoke alarm controller allows compatible Lifesaver 6000 series smoke alarms to be conveniently tested, hushed and located, as well as offering a memory feature and status indication.

The 6000THL controller is wireless, and provides home owners with a more convenient method to identify which smoke alarm has activated, easily silence alarms and also promote regular testing of smoke alarms.

The 6000THL can control the Lifesaver 6000DCW wireless 10-year smoke alarms, and is also capable of controlling 6000 & 6000RL model smoke alarms when the units are mounted on 6000WB wireless bases. 6000THL remote control can be portable, used with mounted holding bracket, or unit can be fixed to wall.

### Features

- Wireless controller for 6000 series smoke alarms
- Powered by 10 year lithium battery (non-replaceable)
- Single button operation
- Remotely Test, Hush & Locate smoke alarms
- Locate initiating smoke alarm during an alarm event
- Memory feature to identify an activated smoke alarm
- Fault indicator if a fault is detected
- Portable or fixed mounting options

### Technical Specifications

- Part No: LIF6000THL
- Power: 10yr lithium battery (non-replaceable)
- RF Frequency: 918MHz
- RF Range: 30m indoors, 100m line of sight.
- Temperature Range: 0°C - 40°C
- Humidity Range: Up to 93% RH (non-cond.)
- Warranty: 2 years
- Certifications & approvals:
  - ActivFire
  - AS/NZS 4268:2017
  - AS/NZS 3786:2014 (Selected Clause)
  - AS/NZS CISPR 32:2015
  - AS/NZS 62368.1:2018
  - AS/NZS 2772.2:2016 AMD 1:2018

## 6000DCW SMOKE ALARM

10 Year Lithium Battery (non-replaceable)  
with Wireless RF Interlink

The PSA Lifesaver 6000DCW model is a 10 year lithium battery powered smoke alarm with an in-built wireless RF interlink. It is designed to be interlinked with other 6000DCW units & Lifesaver 6000 series smoke alarms fitted with a 6000WB base.

When paired with the 6000THL (wireless smoke alarm controller), the 6000DCW smoke alarm can be operated via remote control, offering effortless test/hush functionality.

The smoke alarm uses photoelectric technology and is designed to be surface mounted on the ceiling or wall. 6000DCW can be used as a single stand alone unit, or be interconnected with up to 24 units.

### Features

- Photoelectric sensing technology
- Powered by 10 year lithium battery (non-replaceable)
- Easy power on / power off baseplate
- Bug screen sensor chamber protection (0.8mm Ø)
- Sensor interference filter technology to reduce false alarms
- Anti-static chamber to repel dust and reduce false alarms
- Single button test and hush feature, with low battery hush
- Fully supervised, secured and monitored wireless RF network

### Technical Specifications

- Part No: LIF6000DCW
- Power: 10yr lithium battery (non-replaceable)
- RF Frequency: 918MHz
- RF Range: 30m indoors, 100m line of sight.
- Temperature Range: 0°C - 40°C
- Humidity Range: Up to 95% RH (non-cond.)
- Warranty: 10 years
- Certifications & approvals:
  - ActivFire
  - AS/NZS 4268:2017
  - AS/NZS 3786:2014

## 6000 SMOKE ALARM

### Mains Powered 240V AC with 9V DC Battery Backup

The PSA Lifesaver 6000 model is a mains powered, 9V battery backed smoke alarm. The alarm uses photoelectric technology and is designed to be surface mounted on the ceiling or wall. It can be used as a single stand alone unit, or can be interconnected with up to 24 units.

When used with the 6000WB (wireless RF interlink baseplate), the alarm offers wireless interlinking capabilities, as well as remote test and hush functionality with 6000THL (wireless smoke alarm controller).

#### Features

- Easy installation & maintenance with QUICK SLIDE base.
- Mains powered, surface mount smoke alarm
- 240V AC with 9V battery backup (Alkaline battery supplied)
- Photoelectric sensing technology
- Robust design for optimum performance and resilience
- Bug screen protector over sensor chamber
- Low battery hush feature
- Single button operation
- Compatible with 5800 series baseplate

#### Technical Specifications

- Part No: LIF6000
- Supply voltage: 240V AC 50Hz
- Battery Back-up: 9V battery (supplied)
- Interconnecting: Up to 24 units
- Temperature Range: 0°C - 40°C
- Humidity Range: Up to 93% RH (non-cond.)
- Warranty: 5 years
- Certifications & approvals:
  - ActivFire
  - SAI Global
  - RCM
  - AS3786:2014

## 6000RL SMOKE ALARM

Mains Powered 240V AC with  
Rechargeable Lithium Battery Backup

The PSA Lifesaver 6000RL model is a mains powered, rechargeable lithium battery backed smoke alarm. The alarm uses photoelectric technology and is designed to be surface mounted on the ceiling or wall. It can be used as a single stand alone unit, or can be interconnected with up to 24 units.

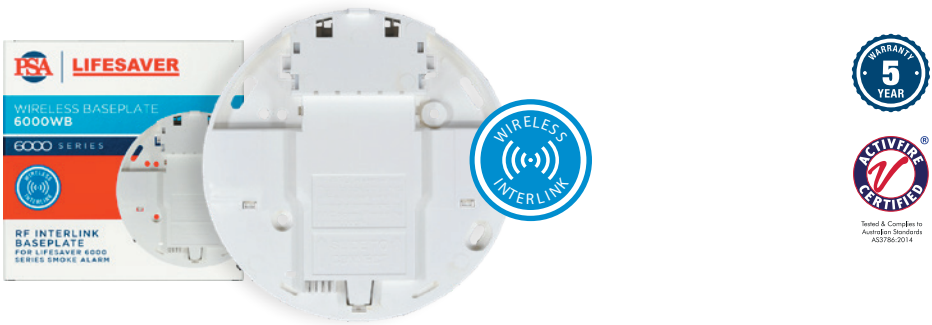

When used with the 6000WB (wireless RF interlink baseplate), the alarm offers wireless interlinking capabilities, as well as remote test and hush functionality with 6000THL (wireless smoke alarm controller).

### Features

- Easy installation & maintenance with QUICK SLIDE base.
- Mains powered, surface mount smoke alarm
- 240V AC with rechargeable lithium battery backup
- Photoelectric sensing technology
- Robust design for optimum performance and resilience
- Bug screen protector over sensor chamber
- Low battery hush feature
- Single button operation
- Compatible with 5800 series baseplate

### Technical Specifications

- Part No: LIF6000RL
- Supply voltage: 240V AC 50Hz
- Battery Back-up: Rechargeable lithium (non-replaceable)
- Interconnecting: Up to 24 units
- Temperature Range: 0°C - 40°C
- Humidity Range: Up to 93% RH (non-cond.)
- Warranty: 5 years
- Certifications & approvals:
  - ActivFire
  - SAI Global
  - RCM
  - AS3786:2014

## 6000WB WIRELESS BASEPLATE

### RF Interlink Baseplate for Lifesaver 6000 Series Smoke Alarms

The PSA LIFESAVER 6000WB is a smoke alarm baseplate with an in-built RF interlink module. The 6000WB, when paired with the 6000THL wireless smoke alarm controller, can remotely test and hush 6000 and 6000RL model smoke alarms.

When a Lifesaver 6000-series mains powered smoke alarm is installed onto it, it can wirelessly interlink with other 6000-series smoke alarms also mounted onto 6000WB bases. Thus when its smoke alarm sounds, the 6000WB will cause other smoke alarms in the same RF interlinked network to also go into alarm.

The 6000WB RF interlink protocol is compatible with the 6000DCW wireless 10-year lithium battery smoke alarm.

#### Features

- RF baseplate to interlink LIFESAVER 6000 series smoke alarms wirelessly
- When a smoke alarm triggers, it activates other smoke alarms wirelessly in the network
- Wirelessly interlink up to 24 units
- Combine with 6000THL controller to remotely test and hush 6000 and 6000RL model smoke alarms.
- Continuous operation during power outage.
- Fully monitored & supervised wireless network.
- Interconnect units from different circuits.
- Compatible with 6000DCW, 10 year wireless lithium battery smoke alarm.

#### Technical Specifications

- Part No: LIF6000WB
- Power: Powered by smoke alarm
- Interconnecting: Up to 24 units
- RF Frequency: 918MHz
- RF Range: 30m indoors, 100m line of sight.
- Temperature Range: 0°C - 45°C
- Humidity Range: Up to 95% RH (non-cond.)
- Warranty: 5 years
- Certifications & approvals:
  - ActivFire
  - AS/NZS 4268:2017
  - AS/NZS 60950.1:2015
  - RCM

Smoke in a can, designed to safely and efficiently test smoke alarms. CFC free. Box of 12

## PSA PRODUCTS

# A PROUD HISTORY OF PROTECTING FAMILIES, SINCE 1985.

PSA Products is a family-owned Australian company. We have dedicated ourselves to protect and save lives by supplying innovative fire prevention and security products.

PSA Products is one of Australia's earliest and best-known providers of smoke alarms, fire safety and security solutions for homes and businesses.

For over 35 years, we have been designing, manufacturing and distributing complete protection solutions and products for the fire, electrical and security industries.

PSA is proud to partner with one of the world's largest leading manufacturer of fire safety products to bring first class products to protect people and property. We are a specialist provider of smoke alarm products and solutions, backed by over 100 years of experience in design, manufacturing and proven performance.

We take pride in delivering great customer service through unrivalled expertise. Our team of specialist technicians are available to assist with product support and offer installation advice of the highest quality.

We're committed to providing you with a total safety solution to suit your needs. Our mission has been to make our community a safer place by protecting families with essential systems, equipment and services - making PSA Products a partner you can trust.

## WHY CHOOSE PSA?

### MISSION

---

To be the brand of choice for our customers by supplying products of the highest standard and quality. Developing the best in our people to deliver exceptional customer service and support.

### VALUES

---

At PSA Products, we strive to be a company of integrity and innovation that go beyond the expectations of our customers every time.

### VISION

---

To protect and save lives by supplying innovative fire and safety products. To establish ourselves as a safety partner at home and work.

### PROMISE

---

As a customer centric business we are unified and work as a team to put our customers and their needs first, while offering high quality and reliable products for solutions to suit their needs.
