

MOUNT BACKING PLATE

FEATURES

- The Asbestos Friendly Mount Backing Plate offers a fast, safe and efficient alternative to mounting your smoke alarm with a magnetic assembly system. Compatible with the Ranger Battery Powered Smoke Alarms.

RF MODULE

FEATURES

- The RF module simply plugs into the designated slot in the base of the Vulcan 240V alarm.
- Once fitted with the RF module, the alarm connects with up to 40 alarms on one wireless network.

9V BATTERY

FEATURES

- Use to replace the battery in the 1-yr Ranger Battery Powered Smoke Alarm or the battery backup in the Vulcan 240V Smoke Alarm.
