# LIVING now

Forever an icon,  
today smart as well.

Living Now is the new Living generation. A timeless icon which combines the linearity of a unique design with the simplicity of smart technology. All this without changing wiring procedures because Living Now is installed in the traditional way, guaranteeing a perfect installation.

Traditional  
control

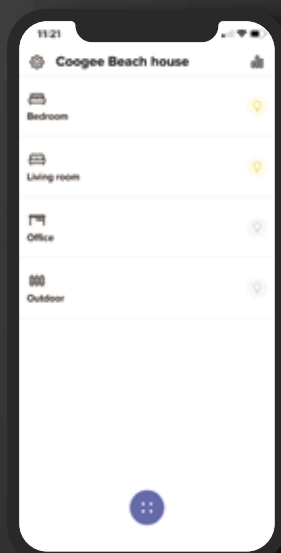

Control with  
smartphone

Scheduling

- **Innovative design:** revisited relationship between cover plate and functions.
- **Smart:** the first intrinsically connected wiring devices range!
- The best technical solutions for a **perfect installation.**

App  
Home + Control

# DESIGN INNOVATION

**PERFECTLY FLUSH WITH  
ELEGANT DETAILS**

Living Now, has won this prestigious international award confirming BTicino's ability to combine technology and design

### FULL TOUCH CONTROLS

The light can be switched on or off by pressing any point the keys surface. After being pressed, the keys return to their original position, perfectly aligned.

### MORE SPACE FOR FUNCTIONS

Unique shape with increased space for functions

# NEW DIGITAL CONTROLS WITH LIVING NOW FINISH

Living Now series digital controls are now part of the MyHOME\_Up automation range. A mix of incomparable innovation and simplicity, ready to be discovered, heard and touched.

## **VOICE CONTROL**

Device with built-in Amazon Alexa assistant, ideal for voice control of the MyHOME\_Up home automation functions.

### **LIGHT AND FULL CONTROLS**

- New touch controls without cover plate
- Customised icons and leds using the app MyHOME\_Up
- Expandable to new functions

# DEVICE FINISHES

— WHITE

— BLACK

## 2 COLOUR OPTIONS

Each device features an aesthetic component, its covers which are available in two colours: white and black, each featuring a pleasant satin finish.

## COVER PLATES

The Living Now cover plate range includes 12 finishes, made from a range of designer materials including techno polymer metal and wood.

## MYHOME\_UP DIGITAL CONTROLS

MyHOME\_Up digital controls do not require the use of cover plates and are available in white and black.

# COVER PLATE FINISHES

**ICE cover plate**  
Material: techno polymer  
Code: ...DW

The zamak and wood finishes are obtained using sustainable production procedures. Each coverplate is unique and features distinguishable features making them one-of-a-kind.

**GOLD cover plate**

Material: zamak  
Code: ...ZW

**MOON COVER PLATE**

Material: zamak  
Code: ...NW

**SKY cover plate**

Material: techno polymer  
Code: ...DA

**PIXEL cover plate**

Material: techno polymer  
- pixel effect  
Code: ...MW

**OAK cover plate**

Material: wood  
Code: ...LM

# COVER PLATE FINISHES

**STEEL cover plate**  
Material: zamak  
Code: ...ZG

The zamak and wood finishes are obtained using sustainable production procedures. Each coverplate is unique and features distinguishable features making them one-of-a-kind.

**BLACK cover plate**

Material: techno polymer  
Code: ...KG

**SPACE cover plate**

Material: zamak  
Code: ...NG

**WALNUT cover plate**

Material: wood  
Code: ...LG

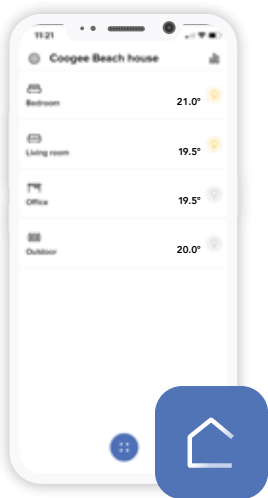

**NIGHT cover plate**

Material: techno polymer  
Code: ...DG

THE RIGHT SOLUTION FOR ALL NEEDS

# SMART ELECTRICAL SYSTEM

Living Now <sup>WITH</sup> Netatmo

App HOME + CONTROL

## INSTALLATION WITH TRADITIONAL WIRING

Install a traditional electrical system and enjoy SMART functions by connecting it to a home Wi-Fi network. Use the HOME + CONTROL App on a smart device to control lights, small appliances and shutters and more.

### FUNCTIONS

- Lights
- Shutters
- Sockets
- Temperature control
- Scenario control
- Consumption display
- Load shedding control
- Planning programmed

### CHOOSE HOW TO CONTROL IT

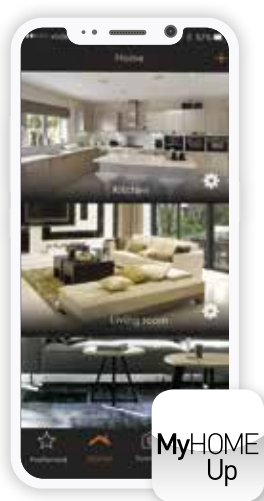

LIVING  
**now**

# HOME AUTOMATION SYSTEM

Living Now MyHOME\_Up

 alexa built-in

App MyHOME\_Up

## INSTALLATION WITH BUS

Create a BUS integrated system manageable from the MyHOME\_UP App, using voice or the Touch Screen controls.

### FUNCTIONS

- Lights
- Shutters
- Sockets
- Temperature control
- Scenario control
- Consumption display
- Load shedding control
- Burglar alarm
- Video door entry system
- NUVO sound diffusion system
- Integration with other brand.

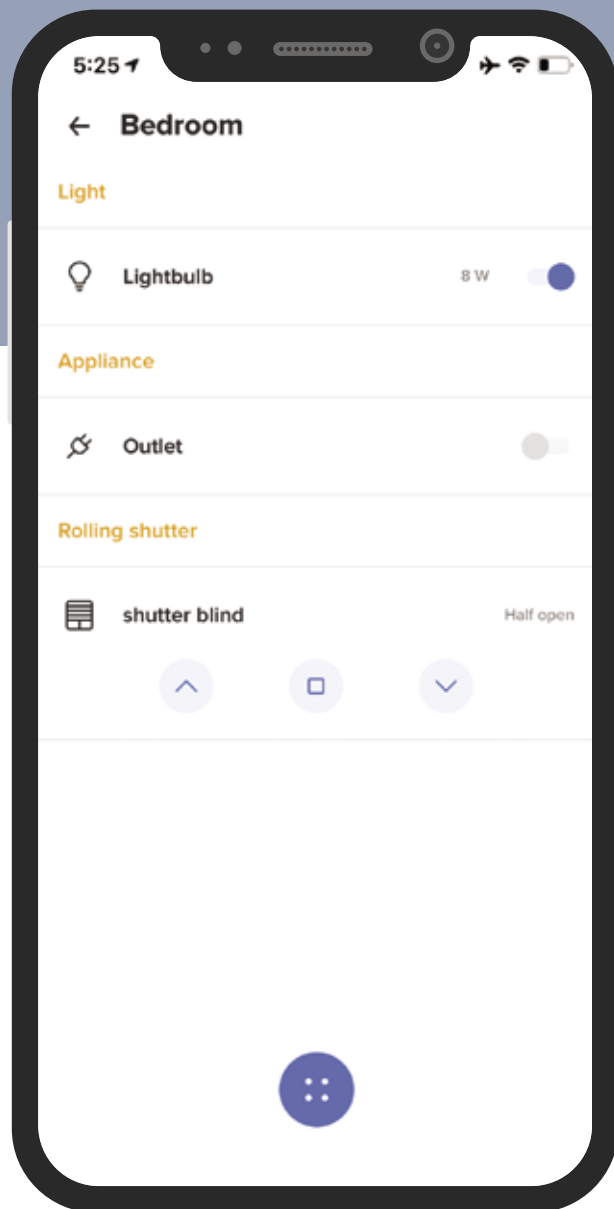

### CHOOSE HOW TO CONTROL IT

# SMART ELECTRICAL SYSTEM

Check in on your home just like you would for your emails or bank account. Enjoy the convenience of complete home control right at your finger tips.

App  
HOME + CONTROL

**GENERAL CONTROL**

With one single click, a general control will allow you to switch off lights and lower all the shutters when you leave home, or activate your favourite scenario.

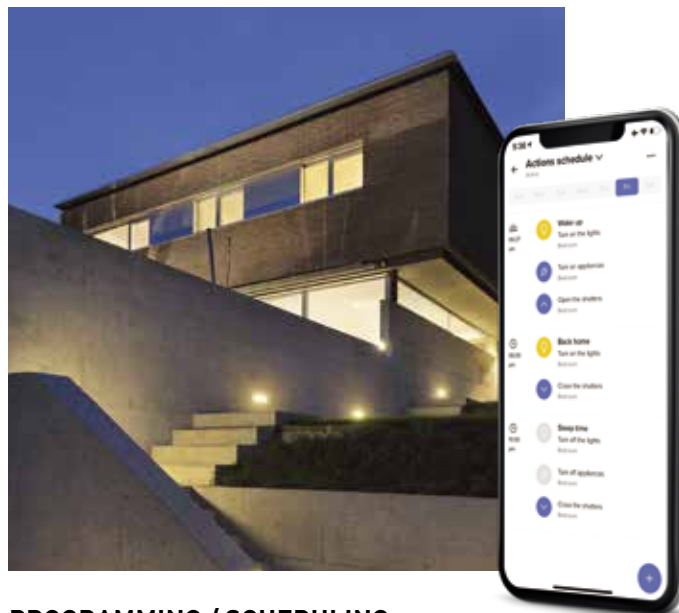

**CONTROL WITH SMARTPHONE**

From your smartphone, you will be able to view and check the status of lights, shutters and connected power sockets from anywhere.

**VOICE COMMAND**

Control your system using your voice via your preferred digital assistant.

**PROGRAMMING / SCHEDULING**

Program the activation of lights, shutters and loads connected to sockets based on your needs. Appliances:

- automatically switch on the garden lights at sunset and switch them off at sunrise;
- switch on a selection of lights and activate shutters to give the impression you are home while away on holidays.

# Smart electrical system

## TEMPERATURE MANAGEMENT

Remotely check and manage the temperature inside your home using your smartphone via the connected thermostat Smarter with Netatmo.

## LIGHTING AT THE DESIRED LEVEL

Adjust the light level for optimum personal comfort. You can do that from the connected Dimmer, the associated wireless controls and Smartphone, using the Home+Control App.

**LOAD SHEDDING TO AVOID BLACKOUTS**

In overload conditions, the system automatically disconnects the least important load to avoid tripping circuit breakers (blackout).

**ENERGY CONSUMPTION CONTROL**

Use your smartphone to check electricity consumption of your appliances (daily, monthly and yearly).

**WIRELESS CONTROL**

Add wireless controls (lights, shutters and sockets), or reposition them at any time depending on your needs.

**ALARM NOTIFICATIONS**

Receive warning notifications on your smartphone.

# HOME + CONTROL

One single App, many connected advantages

Home+Control is the App that makes it simple to supervise the Living Now Smart system using iOS and Android mobile devices, inside and outside the home.

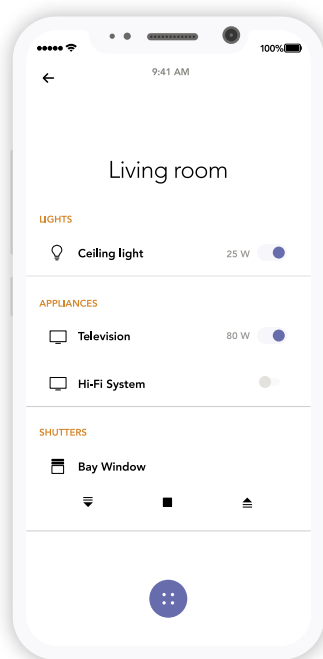

## WHAT YOUR CUSTOMER CAN DO:

1. Activate and customise **8 scenarios** (4 preconfigured scenarios, coming in, going out, day, night and 4 scenarios customisable by the user);
2. **Display and check the status of lights, shutters, loads connected to sockets and the room temperature;**
3. **Use the Smarter timer thermostat** simply and intuitively;
4. **Check the total home consumptions.**
5. **Receive notifications** on the load and system status;
6. **Define the load priority** for black-out prevention.

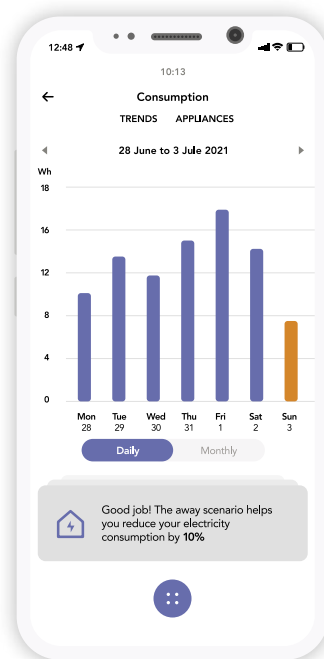

## HOME + CONTROL CONFIGURATION IS EASY, BOTH FOR YOU AND YOUR CUSTOMER.

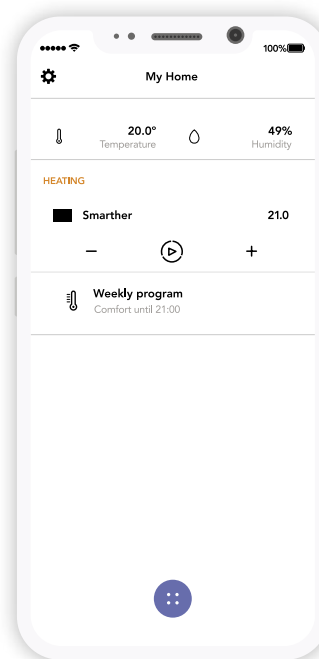

Simply download the App from the Apple or Google store, and follow the guided instructions.

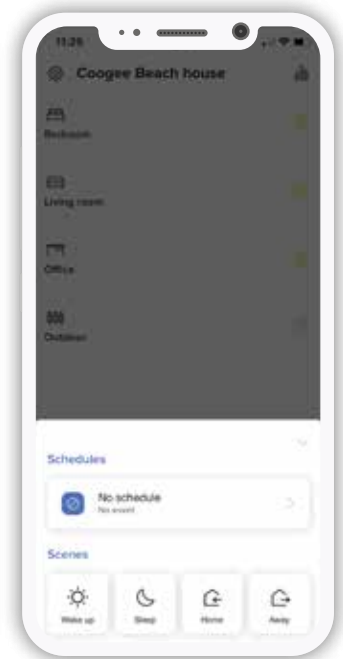

Appliance and load activations

Consumption display

Temperature management

Scenario management

“OK Google,  
set Kitchen light to 100%”

# YOUR CUSTOMERS CAN ALSO MANAGE THEIR HOME WITH THEIR VOICE

With Living Now with Netatmo, your customer will be able to control the system using Apple, Google and Amazon voice assistants. An extremely useful feature, also great for those with mobility problems.

The Gateway connects the system to the Internet via the Home Wi-Fi network.

“SIRI, switch the bedroom light on”,  
“OK Google, switch all the home lights off”,  
“ALEXA, set temperature to 20 degrees”.

# Smart electrical system: a simple, rational range of connected devices, both wired and wireless.

See catalogue for detailed descriptions, availability and full range of products.

# INSTALLED JUST LIKE A TRADITIONAL ELECTRICAL SYSTEM

1.

## DEVICES ARE INSTALLED AND WIRED LIKE TRADITIONAL DEVICES

In lieu of a traditional device, install the connected device of the corresponding type: one for each control point. Remember that the device must always be powered; therefore, ensure that the phase and neutral cables are present. Once installed, the connected control is operational straight away; you will therefore be able to switch the connected light on without the need to do anything further.

EXAMPLE OF A MULTI-WAY SWITCHING  
LIGHT POINT

# 2.

## DEVICES CAN BE ASSOCIATED TO EACH OTHER BY SIMPLY PRESSING A PUSHBUTTON

**A.** Power the electrical system

**B.** Simultaneously press both buttons (Home icons) on the wireless master switch for 5 seconds

**C.** Devices are associated automatically. You can use the scenario control to activate the going out feature

# 3.

## DOWNLOAD THE HOME+CONTROL APP AND FOLLOW THE SETUP ASSISTANT

App Home + Control

## THE SYSTEM MAY BE EXPANDED WITH WIRELESS SWITCHES ASSOCIATED TO THE DEVICES BEING CONTROLLED

**A.** Simultaneously press both buttons (Home icons) on the wireless master switch for 5 seconds

**B.** Place the devices to be associated in contact

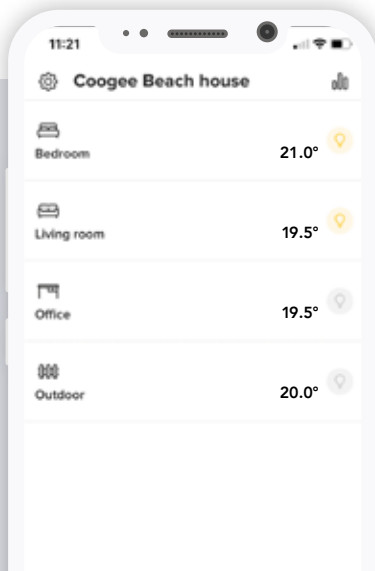

**C.** Install the wireless switch anywhere, based on the needs of your customer

COMING  
SOON

# The **new** connected thermostat **Smarter** WITH **Netatmo**

#### WITH THE APP IT'S ALL EASIER

- Remotely manage the thermostat simply and intuitively
- Create and modify weekly programs
- Manage the thermostat from several smartphones and different users
- Control several thermostats in the same home or different homes
- Manage the thermostat updates
- Combine the voice command with your favorite voice assistant (Amazon Alexa, Apple Home Kit or Google Home)

# What can you do with the BTicino connected thermostat?

## SETTING THE PROGRAMS

Using the Home + Control App, it is possible to set preset programs based on habits

## AWAY

If you need to be away from home for a few days you can, via the APP, act remotely to adjust the thermostat (e.g. in antifrost mode) independent of the automatic programming.

## BOOST

The Boost function can be used to activate the heating or cooling system for a limited time (30, 60 or 90 minutes), irrespective of the set program and the ambient temperature.

## MONITORING CONSUMPTIONS

Using the Home + Control App, it is possible to easily manage and monitor consumptions.

## MAXIMUM COMFORT IN EVERY ZONE

Using the same App, it is possible to manage several thermostats in the same home or in different homes.

## The connected thermostat is simple and intuitive

Display the temperature and set it as desired

Display the set room temperature and humidity

Activate the Boost function

LOCAL DEVICE CONTROL

VOICE CONTROL

GEOLOCATION

# INSTALL A MyHOME\_Up SYSTEM USING THE LIVING NOW RANGE

Voice control

Light and Full digital controls

BUS

The range of home automation devices is completed by two innovative Living Now digital controls offering innovative control of your system:

- voice control with built-in Amazon Alexa voice assistant
- Light and Full digital controls.

App MyHOME\_Up

Display thermostat

Touch Screen HOMETOUCH (compatible with Netatmo cameras)

MyHOME Server1

- NUVO audio system
- Third-party products and devices
- Indoor and outdoor Netatmo cameras

**EVERYTHING UNDER CONTROL**

Thanks to MyHOME\_Up, end users can manage their homes in full freedom: using Living Now manual controls, Touch Screen devices and Smartphones with the MyHOME\_Up App.

MyHOME\_Up system can be managed by voice through the Voice Control Alexa built-in and also with the Amazon and Google vocal assistants

# THE VOICE OF HOME AUTOMATION

**VOICE CONTROL:  
INNOVATIVE DEVICE WITH INTEGRATED  
AMAZON ALEXA VOICE ASSISTANT**

Control MyHOME\_Up system like never before  
with integrated voice control.

*“Alexa, welcome me home”*

*“Alexa, what will the weather be like tomorrow?”*

**YOU ASK,  
ALEXA ANSWERS.**

Use your voice to activate home automation functions in your home: lights, shutters, scenarios, favourite music, or ask for any other information.

Note: with the “Welcome me home” scenario, it is possible to activate lights and shutters and disable the burglar alarm.

*“Alexa, set the alarm for 7:30”*

*“Alexa, switch off the lights”*

*“Alexa, activate the relaxation scenario”*

Note: with the “Relax” scenario, it is possible to activate lights and shutters, set a comfort temperature and listen to the preferred music through the NUVO multi-room system.

# A NEW WAY TO TOUCH HOME AUTOMATION

## **LIGHT CONTROLS AND FULL CONTROLS: A MULTISENSORIAL EXPERIENCE**

- New touch controls without cover plate
- Customised icons and LEDs using the app MyHOME\_Up
- Light and Full controls expandable to new functions

App MyHOME\_Up

### CREATE CUSTOMISABLE FUNCTIONS

The function associated to the control device and the corresponding icon can be changed at any moment, using the app MyHOME\_Up.

#### FUNCTION MODIFICATION

From dimmer control

To shutter control

#### FUNCTION EXTENSION

From the control of one light

To the control of two lights

**LIGHT CONTROL**  
To manage the lighting  
(1 or 2 lights, group and general)

### CHOOSE BETWEEN FULL AND LIGHT CONTROLS

Digital controls for every need.  
Two versions, endless customisation to be adapted to any lifestyle.

**FULL CONTROL**  
From 1 to 3 lights, dimmer, roller shutters, nuvo audio, load controls and scenarios.

### EXTEND THE CONTROL

Expand the system by adding new control devices with a new frame. Without wiring.

FROM 3 CONTROL DEVICES

K4703AU support frame

3 module-frame

Digital controls

TO 4 CONTROL DEVICES

K4703AU support frame

4 module-frame

Digital controls

**MOVE THE POSITION**

With a simple operation, its possible to change the position of a control device while maintaining its function without wiring.

FROM THE LIVING ROOM

TO THE BEDROOM

# INSTALLATION OF DIGITAL CONTROLS

## FUNCTIONAL ELEMENTS

### INSTALLATION

With reference to the illustration, digital devices are installed using traditional mounting accessory and support, using an appropriate “frame” with 27 Vd.c. control device power supply contacts.

The Module for connection to the BUS system is installed on the support.

Frame

Design feature

Digital controls

## AESTHETIC ELEMENTS

### INSTALLATION OF VOICE CONTROL

This operation is completed in a similar way as the installation of digital controls, but it requires the removal of the two vertical finishing elements from the frame.

Frame

Voice control

# ALWAYS PERFECT INSTALLATION

Standard stud, render brackets and wall boxes, or C-Clip Cat no. CC503

Support

Traditional or smart mechanisms

## FUNCTIONAL ELEMENTS

### STANDARD INSTALLATION

In both cases of **traditional** and **connected devices**, installation is always standard, with the following characteristics:

- traditional wiring;
- 3 module support frame (Cat no K4703AU), Single and Double powerpoints: can be installed using all standard stud brackets, render brackets or wall boxes. If a C-clip is required, only use Cat no. CC503.
- no configuration required.
- 4 and 6 Module support frames: use dedicated wall mounting boxes, refer to p.58

### YOUR WORK DOES NOT CHANGE, BUT IS MADE EASIER

The installation process doesn't change and once the aesthetic components are installed, you hand your customer a complete, good looking solution.

## AESTHETIC ELEMENTS

### SITE ACTIVITY SEQUENCE

- Install the system, fully working, but without aesthetic elements (cover plates and key covers)
- Protect the light point using the protective shell (supplied with the support)
- After completing all the works (including the painting of the walls), install the cover plates and the key covers

### MORE ADVANTAGES

- When repainting the walls in the future, the customer will be able to easily remove the light point aesthetic components, cover plates and key covers, and just as easily replace them on completion of the works
- After a few years the customer decides to change light points?  
It is possible to simply change the key covers, without touching the mechanisms

# SOLUTIONS FOR AN ALWAYS PERFECT INSTALLATION

## FULL TOUCH CONTROL: ERGONOMICS

The entire surface is functional. It can be activated from the top, bottom or centre, ensuring exceptional ergonomics.

## FULL TOUCH CONTROL: ELECTRO MECHANICS

1) tested with over 80,000 activations with the load connected; double than the standard requirements.

This equals over 40 years of "normal" use.

2) 10AX 250 V, tested up to 700 A peak; also perfect for the new LED light bulbs, which generate significant peak current when switched on.

## SELF CENTERING SYSTEM

This patented cover self-centering system ensures that the control covers are always aligned with the other components of the light point, even after extended use.

**FLOATING FRAME**

It's the flexible floating frame at the back of the cover plate that ensures that the light point perfectly adheres to any wall.

The floating frame gives the possibility of:

- 1) hiding wall defects;
- 2) hiding any irregularity in flush mounted boxes positioning;
- 3) hiding the external collars of plasterboard boxes.

**STRONGER SUPPORT**

Reinforced frame, thanks to the new geometry and high performance materials.

**BETTER PROTECTION**

The support has a protective shell, which can be used to protect supports and mechanisms from possible damage during decorating activities, for example when painting the walls.

### EXAMPLES OF LED CONNECTION ON A SWITCH

### Control backlighting led connection

Note for the connection of 230 V.a.c. LEDs for the backlighting of control devices: when LEDs are fitted to help locate the control itself, it must be taken into account that energy saving and fluorescent lamps do not allow in series connection of the LED on the load. It is therefore necessary to also take a neutral conductor near the control, so that the LED may be connected directly between phase and neutral, and will always be on.

# Living Now with Netatmo smart electrical system

XW8003

XG8003

XW8003W

The Smarter with Netatmo connected thermostat, together with the dedicated HOME+CONTROL APP, is a device which allows you to adjust and monitor the temperature in the rooms precisely and accurately; all the programming and most of the functions are performed simply and intuitively using the APP. Thanks to its Wi-Fi connection, Smarter with Netatmo can be programmed and controlled remotely; it can also display the temperature and humidity measured in the room. The temperature level can be set locally for manual operation and the Boost mode can be activated. The Boost forces the switching on of the system for a limited time (30, 60 or 90 minutes) independent of the measured and programmed temperature.

It's also possible to set a different temperature in each room of the house for the maximum comfort, thanks to its compatibility with Netatmo smart radiator valves.

Smarter with Netatmo can also be controlled with Google, Amazon Alexa and Apple Home Kit voice assistants.

Features:

- 110 ÷ 230 V~, 50/60 Hz power supply;
- 2 W max absorption;
- maximum cable section 1 x 1.5mm<sup>2</sup>;
- temperature measurement 5 ÷ 40°C;
- temperature set-point 5 ÷ 40°C,
- increase of 0.5°C;
- 1-contact output in switching free of potential 5(2)A.

Available in two colours: white (XW8003) and black (XG8003).

Cat. no.	<b>Connected thermostats</b>	<b>COMING SOON</b>
<input type="checkbox"/> XW8003 <input checked="" type="checkbox"/> XG8003	White Black	
<input type="checkbox"/> XW8003W	Features: as XW8003. Installation on the wall, using screws and dowels suitable for the installation surface (brickwork, plasterboard, tiles etc.). Only available in white.

**MyHOME\_Up system**

MYHOMESERVER1

067259

003487

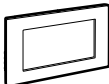

3487AP

Cat. no. **Control server using the app**

○ MYHOMESERVER1  Server to associate devices during the system starting-up and for the local and remote management of the functions by the user with the specific MyHOME\_Up application for Android and iOS smartphones or tablets.

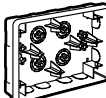

**Note:** For the details of the products managed by MyHome\_Up and the compatible products, see the corresponding guide.

○ 067259 **HOMETOUGH - Touch screen 7"**

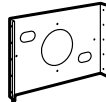

HOMETOUGH - Touch Screen 7" for the management of all MyHOME\_Up functions, that can be integrated with the video door entry system and with indoor and outdoor Netatmo cameras, to be used as connected internal unit. To use the home automation functions, configuration is not necessary. It is possible to display the MyHOME\_Up system status and control the integrated functions (lights, automation, scenarios, burglar alarm, temperature management, Nuvo music system, ...). Thanks to the "DOOR ENTRY for HOMETOUGH" application, available both for Android and iOS operating systems, it is also possible to manage the video door entry functions of a BTicino 2 wires system using the 7" capacitive display or the Smartphone. Flush mounted installation with box for masonry walls (item 003487) or wall mounted installation with the supplied metal bracket. Available in tech grey and in white.

○ 003487 **Box for flush mounted installation**

Box for flush mounted installation of the HOMETOUGH Touch screen item 067259. Width 197 mm, height 148 mm and depth 52 mm.

○ 3487AP

Support for flush mounted installation on plasterboard walls of the HOMETOUGH Touch screen.

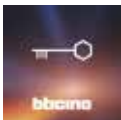

Cat. no. **SCS/DALI interface**

○ F429  DALI dimmer, 8 independent outputs with maximum load 16 ballast at 230 Vac, pushbutton for load direct control - 6 DIN modules

○ F459  **Driver manager**  
Integration platform with other brand systems - 6 DIN modules

Contact your Legrand Australian representative to check the feasibility of specific integrations and to request the licence needed to use the Driver manager.

**App DOOR ENTRY for HOMETOUGH**

This allows the user to manage the video internal unit calls locally and remotely using the smartphone or with a simple touch open the gate, activate the cameras and the video door entry answering machine.

**App MyHOME\_Up**

Mobile device App that allows:  
- the installer, thanks to a self-learning procedure, to easily associate the devices together when starting up the system;  
- the user to manage his home home-automation wherever he is.

BUS frame with intermediate control separators (removable). For the installation of up to 4 digital controls or covers, (item KW/KG8100) in 3-module box with support K4703AU

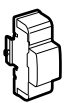

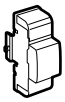

BUS frame with intermediate control separators (removable). For the installation of up to 4 digital controls or covers, (item KW/KG8100) in 4-module box with support K4704

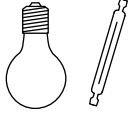

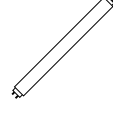

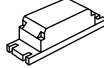

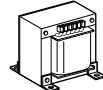

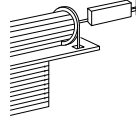

BUS frame with intermediate control separators (removable). For the installation of up to 5 digital controls or covers, (item KW/KG8100) in 4-module box with support K4704

F411U2 F411/4

Cat. no.	Actuators for centralisations
OF411U2	 <p>Actuator with 2 independent relays – for single and double loads: 10 A resistive and 6 A incandescence lamps, 500 W for reducer motors, 2 A <math>\cos\phi</math> 0.5 for ferromagnetic transformers and 250 W for fluorescent lamps                      - logic relay interlock via configuration - it has "Zero crossing" technology                      - 2 DIN modules</p>
OF411/4	 <p>Actuator with 4 independent relays - for single, double or mixed loads: 2 A resistive, 2 A incandescence lamps, 500 W for reducer motors, 2 A <math>\cos\phi</math> 0.5 for ferromagnetic transformers and 70 W for fluorescent lamps - logic relay interlock via configuration                      - 2 DIN modules</p>

LOAD COMPATIBILITY (250 V~ 50/60 Hz)							
Actuators	Type						
							
	Energy saving incandescence and halogen lamps	LED lamps	Linear fluorescent lamps <sup>1)</sup>	Compact fluorescent lamps	Electronic transformers <sup>3)</sup>	Ferromagnetic transformers <sup>2) 3)</sup>	Reducer motors for shutters <sup>4)</sup>
<b>F411U2</b>	10 A 1380 W	250 W Max 4 lamps	4 A 230 W	250 W Max 4 lamps	4 A 230 W	4 A $\cos\phi$ 0,5 460 VA	2 A 460 W
<b>F411/4</b>	2 A 460 W	70 W Max 2 lamps	0.3 A 70 W	70 W Max 2 lamps	0.3 A 70 W	2 A $\cos\phi$ 0,5 460 VA	2 A 460 W

- Notes:**
- 1) Power factor corrected fluorescent lamps, discharge lamps.
  - 2) Account must be taken of the transformer yield to calculate the effective power of the load connected to the actuator. For example if a dimmer is connected to a 100 VA ferromagnetic transformer with yield 0.8, the effective power of the load will be 125 VA.
  - 3) The transformer must be loaded at its rated power and however never less than 90% of this power. It is preferable to use a single transformer rather than several transformers in parallel. For example it is better to use a single 250 VA transformer with 5 50W spotlights connected rather than use 5 50 VA transformers in parallel each with a 50 W spotlight.
  - 4) The  symbol on the actuators refers to the shutter reducer motors.

○ Neutral item (without cover)

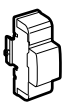

F413N

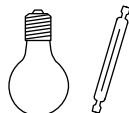

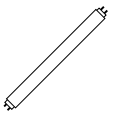

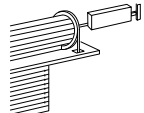

F429

F418U2

Cat. no.	Dimmers for centralisations
○ F413N	 <p>1-output dimmer to supply fluorescent lamps or LED sources with input 1-10 V for single loads up to 2.5 A at 230 Va.c. – type of screw connection - power supply 27 Vd.c. – absorption 30 mA – max 10 ballast that can be connected (clamps 1-2) - with pushbutton for load direct control - version for fastening on DIN rail - 2 modules</p>
○ F429	 <p>DALI dimmer with 8 independent outputs for the connection of up to 16 DALI reactors for each output – 230 V a.c. power supply 50/60 Hz; 110 - 240 Vd.c. – absorption 5 mA - with pushbutton for load direct control - version for fastening on DIN rail - 6 modules</p>

Cat. no.	Multi-load dimmers for centralisations
○ F418U2	 <p>Two-channel dimmer for the management of dimmer LEDs, dimmer compact fluorescent lamps (CFL), energy saving halogen lamps and electronic transformers at 110-230V. Possibility of parallelisation of the two channels to increase the maximum power which can be managed. power supply 27 Vd.c., absorption 18 mA - version for fastening on DIN rail - 4 modules</p>

LOAD COMPATIBILITY (230 V~ 50/60 HZ)							
Actuators	Type						
							
	Energy saving incandescence and halogen lamps	LED lamps	Linear fluorescent lamps <sup>1)</sup>	Compact fluorescent lamps	Electronic transformers <sup>3)</sup>	Ferromagnetic transformers <sup>2) 3)</sup>	Reducer motors for shutters <sup>4)</sup>
<b>F413N</b>	- -	- -	2 A 460 W <sup>5)</sup> Max 10 ballast, type T5, T8, compact or driver for LED	- -	- -	- -	- -
<b>F418U2</b>	2x300 W	2x300 VA	-	2x300 VA	2x300 VA	2x300 VA	-
<b>F429</b>	SCS/DALI dimmer interface - 8 x16 ballast						

- Notes:**
- 1) Power factor corrected fluorescent lamps, discharge lamps. 2) Account must be taken of the transformer yield to calculate the effective power of the load connected to the actuator. For example if a dimmer is connected to a 100 VA ferromagnetic transformer with yield 0.8, the effective power of the load will be 125 VA.
  - 3) The transformer must be loaded at its rated power and however never less than 90% of this power. It is preferable to use a single transformer rather than several transformers in parallel. For example it is better to use a single 250 VA transformer with 5 50W spotlights connected rather than use 5 50 VA transformers in parallel each with a 50 W spotlight.
  - 4) The  symbol on the actuators refers to the shutter reducer motors.
  - 5) Only compatible with lamps with 1/10 V ballast.

KW4691

KG4691

F430/2

F430R8

F430V10

Devices to be completed with appropriate cover as indicated below

Cat. no.	Thermostat
<input type="checkbox"/> KW4691 <input checked="" type="checkbox"/> KG4691	Probe with backlit display that controls the temperature of an individual zone. It features an input for the connection of a contact line (e.g. window contact). It can be used for the management of different types of systems, and the adjustment of the fan speed when fan coils are used. Possibility of automatic operation (summer/winter), with compatible systems - 2 modules White Black

Cat. no.	Actuators
<input type="radio"/> F430/2	 Actuator with 2 independent relays – for single and double loads: 6 A resistive, 2A motor driven valves and pumps - configuration based logic relay interlock - 2 DIN modules
<input type="radio"/> F430/4	 Actuator with 4 independent relays - for single, double or mixed loads: 4 A resistive, 1 A motor driven valves, pumps and fan coils - configuration based logic relay interlock - 2 DIN modules
<input type="radio"/> F430R8	 Actuator with 8 independent relays for the control of on-off valves, motorised valves (open-close and three points), pumps and fan coils with 2 and 4 tubes - 4A resistive, 1A motor valves, pumps and fan-coils- SCS-bus connection - 4 DIN modules
<input type="radio"/> F430R3V10	 Actuator with 3 independent relays and 2 x 0-10 Volts outputs for the control of fan coils with 2 and 4 tubes with proportional 0-10 Volt valves - 4A resistive, 1A fan coil - SCS-BUS connection - 4 DIN modules
<input type="radio"/> F430V10	 Actuator with 2 x 0-10 Volt outputs for the control of 0-10 proportional valves - SCS-BUS connection - 2 DIN modules

**Consumption display**

Cat. no. ○ F520  
 Meter for the measurement of electricity on a maximum of 3 lines, by connecting 3 toroids to the appropriate inputs. Version for fastening on DIN rail - 1 module. The device is fitted with 1 toroid.

○ 3523  
 Additional electricity meter toroid, item F520 and for actuator with sensor, item F522 for the measurement of the earth leakage current. Cable length 400 mm.

**Load control management**

○ F521  
 Central unit for the management and control of the actuators of the load control system, to prevent the risk of detachment of the limiter of the electricity supplier. The central unit manages up to 63 loads, a contract power between 1.5 and 18 kW, and tolerance up to +/- 20%. It integrates an electricity meter for the controlled line. Version for fastening on DIN rail - 1 module. The device is fitted with 1 toroid.

○ F522  
 Actuator with integrated current sensor for the measurement of the controlled load consumptions. 1 relay - 10 A for incandescence lamps or ferromagnetic transformers, and 4 A for fluorescent lamps or ferromagnetic transformers, and 500 W for compact fluorescent and LED lamps - Bistable relay with zero crossing for the Automation and/or Load control management functions. Version for fastening on DIN rail - 1 module. Earth leakage control by connecting the additional toroid, item 3523.

○ F523  
 1 relay actuator - for incandescence lamps and 4 A for fluorescent lamps or ferromagnetic transformers, and 500 W for compact fluorescent and LED lamps - bistable relay with zero crossing for the Automation and/or Load control management functions. Version for fastening on DIN rail - 1 module.

**Accessories**

○ 3508BUS  
 removable clamp for BUS connection - width 3.81 mm

○ 3508U3  
 removable clamp 3 poles

**Power supplies**

Cat. no. ○ E49  
 Compact power supply - input 230 Va.c. - output 27 Vd.c. Maximum current delivered 600 mA - 2 DIN modules.

**Connection cables**

○ L4669  
 Sheathed pair made up of 2 flexible wires with unshielded plaited sheath - insulation 300/500 V - complies with standards CEI 46-5 and CEI 20-20 - coil length 100 metres

○ L4669/500  
 as above - in 500 m coils

## INSTALLATION AND COVER PLATE RANGE

EXAMPLE OF INSTALLATION OF THE LIGHT POINT WITH 1-MODULE COVER

EXAMPLE OF LIGHT POINT COMPOSITION

\* Note: for solutions using one 2-module cover for the main controls, it will be necessary to use two "half-module blanking modules" (item K4949) at the sides of the control. (see the sample diagrams below)

**INSTALLATION EXAMPLE OF THE DIGITAL CONTROLS**

Installation with actuator in DIN switchboard

At the side of the connection module, install 2 blanking modules, item K4950, in any position.

Installation of the voice control

Remove the finishing bars from the electrified frame.

**Living Now**

**Notes:**  
 - The cover plate/cover combinations shown in these pages are purely indicative. Each cover plate can in fact be combined with covers of any colours, as required by the customer (white and black).  
 - The zamak and wood finishes are obtained using non-mass production procedures. The differences among the various cover plates are therefore a distinguishing valuable element.

## Living Now

**TECHNICAL INFORMATION,  
DIMENSIONAL DATA**

**LIGHT POINT INSTALLATION**

**REMOVING KEY COVERS**

Key covers are those that move in relation to the light point, to allow the activation of a control (traditional, connected or MyHOME\_Up)

**REMOVING FIXED COVERS**

Fixed covers those are attached to the cover plates, such as for example blanking modules and all non-control devices (e.g. sockets, RJ connectors, TV sockets, USB chargers, etc.)

1. Backlit display
2. Temperature display
3. Lighting sensor
4. ON / OFF key sets the system (OFF) in anti-frost (7 °C) or heat-protection (35 °C) mode
5. Temperature setting indicator: appears when the temperature is being set
6. ON heating indicator
7. ON cooling indicator
8. Keys for temperature setting
9. OFF thermostat indicator
10. Connection clamps

Wiring diagrams

- System only for heating with clean contact (e.g. boiler activation) or heating and cooling with floor system

- Heating and cooling with different systems

- System only for heating with load to be controlled to the mains voltage (e.g. 230Vac solenoid valve)

Technical features

Power supply	110 – 240 V $\sim$ , 50/60 Hz
Absorption	2 W max
Maximum cable section	1 x 1.5mm <sup>2</sup>
Operating temperatures	5 – 40 °C
Setpoint temperature	5 – 40 °C; increase of 0.5 °C
Type of operation	1BU
Pollution index	2
Rated pulse voltage	4 kV
Contact output	5(2) A

**Living Now**
