

## **UMBRA CORE IP65**

Core IP65 Weatherproof Batten, Dual Power, Tri-CCT

- Tri-colour selection
- Selectable output power
- Increased ambient temperature of 40 degrees
- IP65 weatherproof rating and IK08 impact rating
- High efficiency design >130lm/W
- Excellent LED lifetime for energy efficient lighting designs

ORDERING INFORMATION	
Order code	12138
Description	UMBRA CORE 1200mm LED Batten - Tri CCT
Driver Type	Fixed output
Item Code	EV-UMBRA-CORE-IP65-1200-TRI
Driver Power	40 W

EFFICIENCIES	
Total System Efficiency	134 lm/W

The performance of each component of a luminaire is demonstrated through its efficiencies, which together determine the total system efficiency of the product. The output of the LED chip is first multiplied by the optical and thermal efficiencies to calculate the Luminaire efficiency. However, this calculation does not consider the driver efficiency. To determine the overall efficiency of the system, the Luminaire efficiency must be multiplied by the driver efficiency, which accounts for all losses in the system.

MECHANICAL	
IP Rating	IP65
IK Rating	IK08
Fitting Colour	Grey
Body Material	Polycarbonate
Diffuser Material	Polycarbonate
Installation Type	Surface mount

ELECTRICAL	
Working Temp Range	-20 to 40 °C
Input Frequency	50 Hz
Switch Type	Inline
Power Factor	0.95
Maximum Wattage	32 W
Input voltage	230Vac

In Australia the Input voltage is defined as 230Vac -6%/+10%. This effectively means that the voltage range of these products are 216Vac - 253Vac or 240V +6%

Input Current 0	.16 A
-----------------	-------

LAMP	
Colour Rendering Index (CRI)	>80
CCT Configuration	TRI-CCT
Macadam Steps (SDCM)	6-step MacAdam Ellipse
Lamp/LED voltage	99 V
Lamp/LED Current	300 mA

LED LIFETIME	
LED Lifetime	>72000 hrs

This is the Reported LED Lifetime in Hours based on TM-21. Ektor does not list the projected or calculated LED lifetime, which is normally longer as TM-21 Addendum B explicitly states "The Calculated and Projected Lp(Dk) are not to be reported". This Lifetime refers to the life of a single LED however the system life is longer since the probability and binomial distribution of all LEDs in the system means that the average led is performing above the specification and compensates for the LEDs falling below.

Ambient Temp (°C)	25 °C	40 °C

### **L80B10** >72000 hrs >72000 hrs

This rating defines the performance of the led within its lifetime. L relates to lumen depreciation, where the proceeding number gives the resultant lumen output at the end of it reported lifetime. L70, would mean 30% lumen depreciation which means 70% of its initial output and is tested accordingly to TM-21. The B part refers to failures, which can be define as the percentage of LEDs which fall below the L value in the projected lifetime. A value of B10 refers to 10% failure and a value of B50 refers to 50% failure. After the defined lifetime, the system will reach the defined lumen depreciation and the average led failures is defined by the B rating. The B rating is defined in and tested to IEC62717.

TM-21 Test Hours	12000 hrs	

COLOUR TEMPERATU	RE	
20 Watts		
4000 K	2500 lm	
5000 K	2600 lm	
6500 K	2500 lm	
32 Watts		
4000 K	4080 lm	
5000 K	4300 lm	
6500 K	4080 lm	

DRIVER	
Driver Type	Fixed output
Driver Included	Yes
Integrated Driver	No
Dimmable	No
Wiring Type	Re-wireable terminal block (3 pin)
Driver Mode	Constant Current
PSTLM	0.1

Short Term Light Modulation (PstLM): The requirement is that PstLM should be less than or equal to 1.0. This metric measures the short-term flicker severity and ensures that flicker is not perceptible or is at a level that does not cause discomfort or health issues.

Stroboscopic Visibility Measure (SVM): The requirement for SVM is that it should be less than or equal to 0.4. The SVM metric assesses the visibility of the stroboscopic effect, which can make moving objects appear to be stationary or moving in discrete steps, thus ensuring that this effect is minimized in lighting environments to prevent visual discomfort and safety hazards.

ENERGY SAVINGS SCHEME		
Ipart Approval	Yes	
REES Approval	Yes	
VEU Approval	Yes	

## **COMPLIANCE**

#### Product Design Life 6 years

The product design life relates to the total product life which includes LEDs, drivers and the enclosure. This is different to the LED lifetime which only refers to the economical lifetime of the LEDs at which time the lumen output has dropped below the L Value. The product design life is calculated at the maximum ambient or working temperature of the product and takes into account the Daily Use.

#### **Daily Use** 12 hrs

The Daily Use is the recommended time required to meet the product's design life. Installations can exceed this time, however the product design life will be reduced proportionally.

Standards	AS/NZS 60598.1
	AS/NZS 60598.2.1
	AS CISPR 15
	AS/NZS 61347.1
	AS/NZS 61347.2.13

# WARRANTY

VIP Warranty 2 Onsite, 3 RTB (Total 5 Years)

 $\mbox{VIP}$  warranty is available to registered users and is subjected to additional terms and conditions.

Commercial Use Warranty

5Y return to base on General lighting components
First 2Y includes an exclusive onsite warranty

Warranty Operating Hours 15000 hrs

This product is provided with a warranty up until the stated warranty period or until the stated warranty operating hours has been reached (whichever occurs first).

DIMENSIONS	
Product Height	78 mm
Product Length	1207 mm
Product Width	91 mm
