

Universal Wall or TV Soundbar Mount O4MM-SB01

Soundbars come in all shapes and sizes, and now Matchmaster has a solution for customers that are worried about compatibility and the ease of installation. The O4MM-SB01 soundbar bracket is not only universally compatible but has the strength to hold a soundbar up to 15kg and is compatible with all popular soundbar brands. In addition, all hardware is included for quick and easy installation, either fixing directly to a wall or mounting from the back of a TV. The SB01 suits VESA patterns up to 800x400mm and works with fixed, tilt, and full-motion TV mounts or TV stands.

Features and Benefits

- » The one-fits-all design gives three mounting options: above the TV, below the TV, or directly on the wall.
- » Adjustable bracket: suits many different soundbars in different sizes - soundbar width: 86-155mm
- » Weight capacity: 15kg
- » Profile: 112-181mm
- » Matte black powder-coated steel to blend in with devices
- » EVA padded base prevents vibration noise
