View images, save footage to your phone. Easy setup by simply scanning a QR code. Phone not included

Video Surveillance

All you need for a quality video surveillance solution is in this box:

IVSEC NC323XD 8MP IP Cameras

8 Mega-pixel SONY Image Sensor

Human and vehicle tracking capabilities

Built-in PIR sensor can trigger recording

Most cameras can only record on movement detection, but this creates a lot of unnecessary recording with moving branches or car headlights. With this kit, you have the choice of using motion detection and/or the built-in PIR sensor to trigger recording. This can save a huge amount of storage and makes it faster to find the events which really matter.

**Wide-angle 88 degrees lens
+ 30m infrared night vision**

IVSEC NR308XB Network Video Recorder

8 PoE+ ports built-in

Room to add 4 more cameras on top of the 4 in this kit.

H.265 video compression

The most up to date video compression technology. Saves storage space and bandwidth.

Long range PoE+

4K HDMI and VGA output

Additional Inclusions

1 x HDMI cable

1x Mouse

**2TB SkyHawk Surveillance
HHD pre-installed!**
