**5MP** 5 Mega-Pixel Resolution

**Plug and Play Installation**

**3YR** 3 Year Warranty

**Proudly Australian Owned**

### Free Monitoring App for Android & Apple devices

View images, save footage to your phone. Easy setup by simply scanning a QR code. Phone not included

## Video Surveillance

All you need for a quality video surveillance solution is in this box:

### 4 x IVSEC NC110XC 5MP IP Cameras

#### 5 Mega-pixel high resolution

#### Built-in PIR sensor can trigger recording

Most cameras can only record on movement detection, but this creates a lot of unnecessary recording with moving branches or vehicle headlights. With this kit, you have the choice of using motion detection and/or the built-in PIR sensor to trigger recording. This can save a huge amount of storage and makes it faster to find the events which really matter.

**Wide-angle 99 degrees lens + 30m infrared night vision**

### IVSEC NR308XC Network Video Recorder

#### 8 PoE+ ports built-in

Room to add 4 more cameras on top of the 4 in this kit.

#### H.265 video compression

The most up to date video compression technology. Saves storage space and bandwidth.

#### Long range PoE+

#### 4K HDMI and VGA output

### Additional Inclusions

1 x HDMI cable (1.8M)

1x Mouse

**2TB SkyHawk Surveillance HDD pre-installed!**
