

# Multimedia Tamper Proof Enclosure >

The Multimedia Tamper Proof Enclosure provides a 6 or 24 port to-the-desk solution that can be wall or surface mounted. Available in black, red, white, pink or blue, the security enclosure features internal management rings for excess fiber or copper cabling and 25mm knockout holes for easy vertical or horizontal cable entry.

Designed to accept a suite of rear loaded UTP or optical fiber faceplates, the security enclosure has a clear perspex lid and provides a facility for security lugs (sold separately), enabling the user to secure their network and clearly identify if any terminations have been tampered with.

Faceplates are sold separately and are available either unloaded or loaded. Unloaded faceplates support Molex's range of DataGate jacks, multimedia jacks and Synergy single fiber modules. Loaded faceplates feature LC, Duplex SC and ST fiber adapters.

## FEATURES AND ADVANTAGES

Available in 6 and 24 port variants

Accommodates Molex PowerCat 6 and PowerCat DataGate Jacks

Accommodates Synergy single Simplex SC, LC, MT-RJ or ST fiber modules

Accommodates multimedia modules

Low profile for inconspicuous network connecting

Rear loading jacks to reduce tampering

Clear concise labeling

Rear loading to reduce tampering

Tamper proof clear cover

## SPECIFICATIONS

### Physical

**Base Unit:** Cold Rolled Steel

**Lid:** Clear Perspex

#### Dimensions (mm):

6 Port: 45.4 (H) x 143 (W) x 125 (D)

24 Port: 40 (H) x 140 (W) x 185 (D)

#### Shipping Weight:

24 Port: 750g
