

1.2m Tripod Mount for Metal Roofs - Stainless Steel with Black Powder Coating

11MM-TRIPOD-MSS

For the Best

The TRIPOD-MSS is a 1.2m two-piece 316 stainless steel antenna mount specially designed for use on metal or tin roofing. Made from 316 stainless steel and then powder coated with a discrete matt black finish for the highest quality in protection against the harsh Australian environment, this is especially important in coastal areas where salt corrosion quickly destroys any cheaply coated or unprotected metal. Easy installation utilising existing roof screws or self-tapping roof screws into slotted fastening points on the base plate.

Features and Benefits

- » Made from 316 marine grade stainless steel with a matt black powder-coated finish for optimum corrosion protection and peace of mind
- » Perfect for use in coastal areas where salt corrosion destroys standard metals
- » Durable black powder coating allows discrete installation to the modern roofline for optimal aesthetics
- » Two-piece kit consisting of a base plate with a 1.2m mast
- » Quick and easy installation by using existing roof screw points
- » Strong and sturdy design for maximum durability
