

All in One

The ultimate home battery, at an accessible price

Meet the solution transforming home battery storage

With the All in One, you can power even the highest-demand households with maximum efficiency, minimum energy costs.

Our ground-breaking battery and inverter technologies, combined in one integrated product

A companion backup gateway to protect your supply and keep you running during power cuts

**The best home battery
on the market**

Power your home for a fraction of the cost

With a minimalist piece of kit, you can save up to 85% on your energy bills. And, in the process, you can drastically cut your home's carbon emissions.

The All in One stores energy from renewables, such as solar, wind, or hydro. Or, it can simply use the grid to charge overnight when energy costs are low. You can then use that stored energy to power your home cheaply, sustainably, and independently.

Sleek.

Your product is sleek, compact, and easy to install.

Powerful.

Provides enough power to run even the most high demand devices.

Affordable.

High quality performance, at an accessible price point.

An energy titan

The All in One may come to you in a convenient size, but it packs a **major energy punch**.

- ✔ **13.5kWh** capacity as standard - from a single battery
- ✔ Connect up to 6 systems in parallel and achieve **80kWh** of useable energy storage
- ✔ Ability to deliver an enormous **18.4kW** of power into your home

Always connected, always in control

Remotely connect to your GivEnergy devices and monitor and manage your energy at the tap of an app.

Deep-dive into your data with our web portal, for granular visibility and full customisation of your setup.

Invest in a premium home battery, at an attractive price

Your All in One will allow you to save money, live more sustainably, and become energy-resilient. But beyond the personal gains, you're also getting your hands on world-class technology.

Flexible

With the option to connect multiple units, you can scale your energy storage capacity as your needs grow.

Touch-safe

No messy wires, no hot parts, and no clutter. The All in One is touch-safe for the whole family.

Modular

Robust but light. With its modular design, the All in One is built with easy handling and fitting in mind.

Long-lasting

We use high-capacity, energy-dense cell chemistry that increases the life of your product.

Weatherproof

Water resistant, installable indoors or outdoors, and durable enough to function between -10 - 50°C.

Smart

With inbuilt smart algorithms, the All in One is primed for agile tariffs and smart grid trading.

The system has worked flawlessly since installation and has saved me an absolute fortune on energy costs. I feel like I have some energy independence now from rising energy costs and have energy security in the event of a power failure.

My experience has been fantastic and I would recommend the GivEnergy system to any bill-payer.

- S. Roberts

Tech specifications

All in One

A one of its kind home battery and inverter – unrivalled for power and price point. Primarily working as an on grid system, the All in One can deliver 7.2kW of peak power into the home on top of any solar generation.

- 5000W nominal AC output power
- 7.2kW @ 10s, 6.5kW @ 30s peak power
- IP65 rating
- Dimensions 1100H x 600W x 280D (mm)
- 5 year warranty

Giv-Gateway

A companion gateway enabling seamless switching between grid and battery, keeping you powered during outages. The Giv-Gateway also facilitates a connection point for solar PV systems, allowing continued energy generation even without a grid supply.

- 18400W nominal AC output power
- Grid services ready
- Pre-installed energy meter
- Built-in LoRa
- 20ms switchover time
- Dimensions 410H x 370W x 190D (mm)
- 5 year warranty
