

## DATA TESTER

### Product Description:

The DATATESTER is an easy-to-use data, USB and coax testing device perfect for the data installer's everyday use. With the simple press of a button, auto mode checks correct termination of cables such as RJ45, RJ12, RJ11, USB and BNC. In manual mode, each connection can be tested one-by-one based on the user's preference.

With the DATATESTER, tradespeople can ensure that network cables are working correctly, with no short circuits, crossovers or open circuits.

### Features & Benefits

- Light weight and contained in a leather case
- Clear LED display of PIN configurations
- Tests RJ45, RJ12, RJ11, USB and BNC Coaxial cable terminations
- Has both Auto and Manual mode
- Single push button in Auto test mode for fast testing
- Remote test unit included

### Applications

- Testing LAN cabling for short circuits, crossovers or open circuits.
- Suitable for RJ45 (UTP/STP), RJ11/RJ12, USB and Coaxial cables.
