PRODUCT INFORMATION

This rack mount sliding enclosure offers the installer a premium product with a variety of features for easy direct termination or fusion splicing of cables due to its unique sliding tray system. Its modular design provides the flexibility to choose from a variety of thru-adaptor types including ST, SC and LC.

Splice cassettes are easily fitted via pre-installed mountings and the sliding tray allows technicians easy access back into the enclosure after installation for repairs and maintenance.

Cable entry points on the rear are covered when not in use providing protection from rodents.
