

Receive expert lifecycle advice for your critical UPS & cooling assets

EcoStruxure™ Outcomes Protect for Secure Power & Cooling

Focus more on your core business with EcoStruxure Outcomes Protect

EcoStruxure Outcomes Protect is your high-touch digital service, designed to unlock the full potential of your critical but not core assets to achieve more with less of your time.

Leveraging Schneider Electric's digital capabilities and technologies, our experienced Customer Success Managers will recommend actionable lifecycle advice on a monthly or quarterly basis with you to maintain service continuity and maximise product life

Our dedicated delivery team will operate based on a customised operational runbook so that with EcoStruxure Outcomes Protect, you can receive support that fits your schedule and operational needs.

24x7x365 Remote Monitoring

Experience our real-time monitoring and alarm management by our Connected Services Hub Team with in-depth interpretation and action by your Customer Success manager.

Ongoing Management of Digital Software Products

We install and manage your EcoStruxure IT Gateway(s) so you can enjoy the benefits of our cloud technologies

White Glove Concierge Support

Call our Support Hotline number and get fast-tracked to a dedicated team member who can respond to your query immediately
