

Ecoset Mini Sensor

ECOSETMINIWPWH

- Compact and Versatile Design: With a 62mm cutout size, the Pierlite Ecoset Mini IP65 sensor is ideal for recessed indoor and outdoor applications. It features large mains terminals (3 x 2.5mm²), an override function, and operates efficiently in ambient temperatures up to 50°C.
- Reliable Motion Detection: Using passive infra-red (PIR) technology, the sensor detects heat and movement, ensuring lights activate only when needed. It minimizes false triggering and automatically switches off lighting when the area is vacated.
- Customizable Setting: The sensor offers a 360-degree detection range, with distances of 8m at a 3m height and 12m at a 5m height. Adjustable time delays (10 seconds to 15 minutes) and lux settings (3lx to 2000lx) allow for tailored operation based on us

Performance

Operating Temperature	0 to 50
Ingress Protection Rating	IP65

Physical

Dimensions	L75.70 x W75.70 x H59.30 mm
Luminaire Colour	White
Weight	0.12kg
Luminaire Material	Polycarbonate
Finish	Matt White
Installation	Recessed

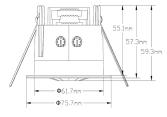

Sensor

Optical Fields of View (FOV)	360
Sensor Type	PIR

Electrical

Voltage	240V
Line Voltage Frequency	50Hz
Electrical Rating	Class II
