

Specification Sheet

Medium Duty 20/0.18 Figure "8" Cable

Application:

This general purpose cable can be used for most low voltage wiring applications. Some commonly used applications are for wiring of speakers in a PA system but it can equally be used for low power applications within a project. It consists of a white outer sheath with a trace colour on one conductor. Available in four trace colours and all are supplied on a 200m reel.

Specifications:

Size:	2 x 20/0.18
Voltage Rating:	300V AC
Current Rating:	5 Amps
No. of Conductors:	2
No. of Strands:	20
Strand Diameter:	0.18mm
Outside Dimensions:	2.2 x 4.4mm
Conductor Area:	0.51mm ²
Conductor Gauge:	20AWG
Temperature Rating:	90°C
