TWO-PIECE CABLE TIE – PA66 BODY WITH 316 STAINLESS-STEEL PAWL

Product Description:

Two-piece cable ties comprising a halogen-free Polyamide 6.6 (PA66) body and a 316 stainless-steel pawl. Designed to lock securely under vibration, movement or higher mechanical loads. Available in UV-stabilised black. All ties feature rounded edges to minimise cable damage during installation.

Technical Data

Parameter	Value
Material	Body: Polyamide 6.6 (PA66), halogen-free Pawl: 316 Stainless Steel
Temperature Range	Installation: –20°C to +85°C Working: –60°C to +85°C Short Term: up to +110°C
Flammability Rating	UL 94 V-2; Plenum Rated AH-2
UV Stabilised	Yes (carbon black additive)
Chemical Resistance	Oils, greases, bases, chlorinated solvents
Halogen Content	Halogen free per EN 14582:2016
RoHS (EU) 2015/863	Compliant
REACH (EC) 1907/2006	Compliant
TSCA (USA)	Compliant
Certifications & Standards	UL 62275, EN 62275:2019, CE (LVD 2014/35/EU)

TWO-PIECE CABLE TIE – PA66 BODY WITH 316 STAINLESS-STEEL PAWL

Applications
- Bundling and securing cables in switchboards, control panels, machinery, and high-vibration environments.
- Suitable for residential, commercial, industrial and transport electrical installations.
- Metal pawl locking mechanism suited to higher loads or dynamic cable movement.

Compatible Accessories

Category	Part No.	Description
Tensioning Tools	KTT	Tensioning and cutting tool for cable ties up to 4.8 mm wide
Tensioning Tools	KTT3	Heavy-duty tensioning and cutting tool for cable ties 3.6 mm to 12 mm wide
Self-Adhesive Mounts	SAM19BK	18 mm square adhesive mount with 3M backing for cable ties up to 3.6 mm wide
Self-Adhesive Mounts	SAM25BK	27 mm square adhesive mount with 3M backing for cable ties up to 4.8 mm wide
