EzyStrut Trade Price Adjustment – 1 May 2026

Dear Valued Customer,

We are writing to inform you of an upcoming adjustment to our pricing.

Please be advised that effective **1 May 2026**, an average price increase of 5% will be applied across our entire product range.

This is the first price adjustment we have implemented in nearly two years, the last being July 2024. During this time, we have worked to absorb ongoing cost increases across manufacturing, freight, and labour. However, the persistence of these inflationary pressures means that a price adjustment is now necessary to ensure we can continue to supply the quality products and service levels you expect.

We also wish to highlight that there remains uncertainty surrounding global raw material markets, particularly in relation to the ongoing situation in the Middle East. Should these pressures continue, further price adjustments may be required.

We appreciate your understanding and continued support. Our team remains committed to working closely with you and delivering reliable supply and service.

If you have any questions or would like to discuss this further, please do not hesitate in contacting us.

Kind regards,

Stephen Taubitz
General Manager
